TIS3, LLC is an 8(a), Woman Owned, CVE-Verified Service-Disabled Veteran-Owned Small Business (SDVOSB). TIS3's mission is to develop new capabilities to customer pain points that right-size organizations, while improving traditional IT service needs. TIS3 creates new and innovative ways to interpret and use data in any environment or business case.

Core competencies

Project Management and Planning, Internet of Things (IoT), SharePoint Design/Development, Information Technology Operations and Maintenance (O&M), Microsoft 365 Support Services, Performance Plan Development, and Executive Business Process Improvement and Program Integration

Past Performance

TIS3, LLC has multiple contracts supporting the Department of Homeland Security (DHS), United States Air Force, Department of Transportation, and the US Library of Congress.

Department of Transportation (DOT): TIS3, via subcontract with SAIC, supports Enterprise Information Technology Shared Services (EITSS) contract. Through this contract, TIS3 assist in the facilitation of Information Technology Shared Services (ITSS) as it moves forward in executing the work requirements of the Center of Excellence (COE). This work is designed to provide visibility and transparency into provider performance and lead the alignment of services to support ITSS's vision, organizational structure, personnel skills, and mission requirement. The support on this contract includes but not limited to: Project Management, Microsoft 365 Support Services SharePoint Design/Development, Information Technology Operations and Maintenance (O&M), and Technical Writing.

U.S. Customs and Border Protection (CBP), DHS. TIS3 provides Program Management, IT O&M, and Acquisition Support to DHS's CBP Program Management Agency. The initiative realigned the portfolios to remove stovepipes, increase collaboration, provide greater efficiency, and improve effectiveness. TIS3 worked with portfolio managers to envision what the future state of the organization should look like. To foster collaboration and buy-in, workshops are held to capture feedback on how to best align programs by capabilities, allowing the organization to surge and improve future performance. The support on this contract includes but not limited to: Project Management, Internet of Things (IoT), Asset Management, Information Technology Operations and Maintenance (O&M).

Testimonial

"[TIS3's] keen subject matter expertise, efficient processes, and innovative integrated technology solutions will directly support and enhance the missions of the Program Management Office Directorate of U.S. Border Patrol." *Executive Director, SES, Program Management Office Directorate, U.S. Border Patrol, DHS Customs and Border Protection*
